About Lantek

At Lantek Corporation, we are a global electronic components distributor, specialising in the American markets. Thanks to our years in the industry and through being a part of the Cyclops Group, we have access to a reliable global network and the know-how to resolve the most challenging issues.

Our team of **global purchasing experts** and **dedicated account managers** work on the ground in each region to find and source the components you need, when you need them.

Incorporated into the Cyclops Group in 1994

One of the most financially secure independent stocking distributors

Global offices and sourcing hubs across several continents

More than 280,000 lines of stock with global sourcing for the best lead times

Our Services

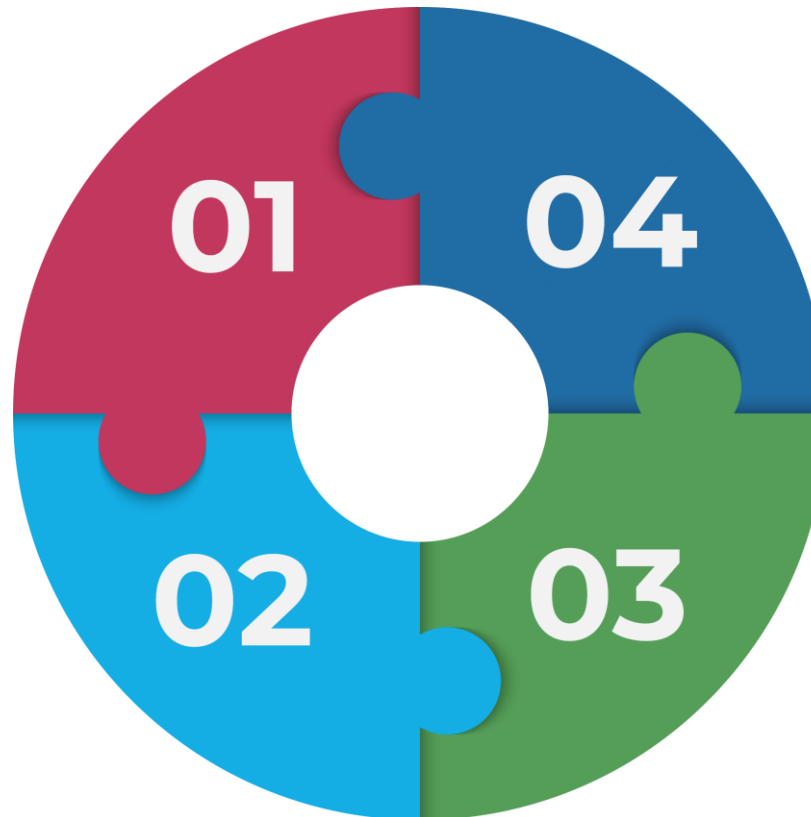

Our team of global sourcing and procurement experts work hand-in-hand to deliver added value to your supply chain.

Electronic component sourcing

Large inventory, global network and quality assurance to keep your supply chain moving.

Scheduled ordering services

Buy your stock in advance at the best price and schedule deliveries throughout the year, saving space, time and money.

Excess buying and selling

Excess stock purchasing and consignment management, getting you the maximum return on total asset value.

Logistics and supply chain management

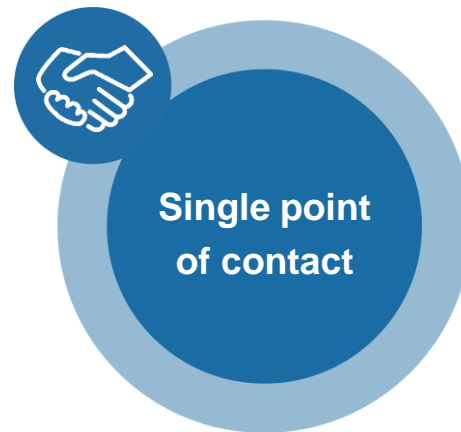

From kitting services to forecasting, we simplify your procurement and optimize your supply chain.

Why Choose Us

At Lantek Corporation, our focus is on delivering outstanding customer service, with the highest standards for quality and reliability.

With a team global sourcing experts, trusted supply network and international distribution hubs, we are able to source the components you need, when you need them.

Personal service through your dedicated Account Manager with no unwanted communications - we will only contact you when needed.

Our industry-leading component testing, inspection and quality procedures remove risks and protect your supply chain.

With market experience build over three decades, we have the knowledge and skills to respond to urgent needs and changing market conditions.

Quality and Inspection

Whenever you make a purchase through Lantek Corporation, you will be protected by our Quality Guarantee.

That means that if the parts we provide you with fail to meet manufacturer's specification within twelve months, we will either replace the parts free-of-charge, no questions asked, or refund the original purchase price.

* Terms & Conditions apply.

Our industry-leading quality control and inspection programs are designed to maintain the integrity of your supply chain.

- There has been significant investment in our quality procedures and we constantly monitor our global procurement network. This is to ensure that only authorized parts will enter your supply chain.
- Our team of highly experience inspectors visually inspect all electronic components upon arrival.
- We have partnerships with trusted testing houses that can offer further extensive testing to ensure you have the utmost confidence in the parts you purchase.
- There is also further testing available through our parent company Cyclops Electronics.

Global Reach

A team of experienced sourcing experts across 8 locations, global trusted supply network and international distribution hubs.

8 global locations

4 regional distribution hubs

50+ countries served

Customer Testimonials

I've had great experiences with Lantek. Elizabeth in particular is so great to work with. Super responsive and resourceful and has gotten us through some tight spots supply chain-wise. Recommend 100%

Resonant Light Technology Inc.

Very professional supplier

COBO

Lantek Corporation knows how to help. We have a good contact to them and they are very helpful. Lantek has their own channels so often they could find parts in a acceptable time and price level.
